## Before you get Started...

Any changes you make in the manager's section (discussed below) will not show up on the [chicagocentralmsbl.com](http://chicagocentralmsbl.com) website immediately. Updates to the website (player information, schedules, player/team stats, etc.) are performed several times during a 24-hour period.

## Logging into the System

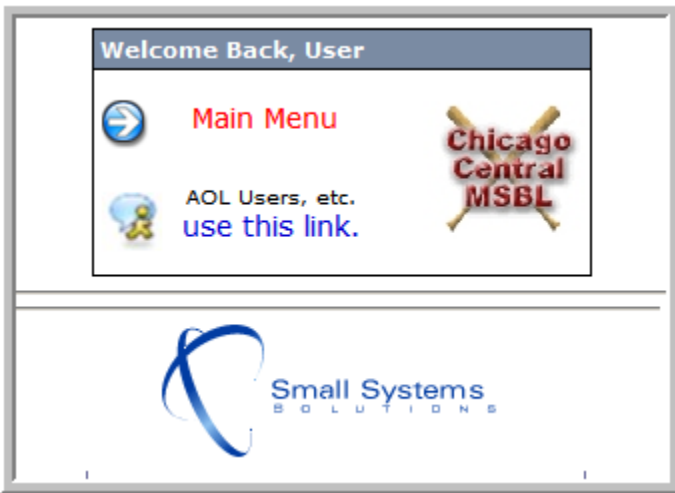

- Go to the Chicago Central MSBL website (<http://www.chicagocentralsb1.com>)
- Click on the Managers link at the bottom right hand corner of the site.

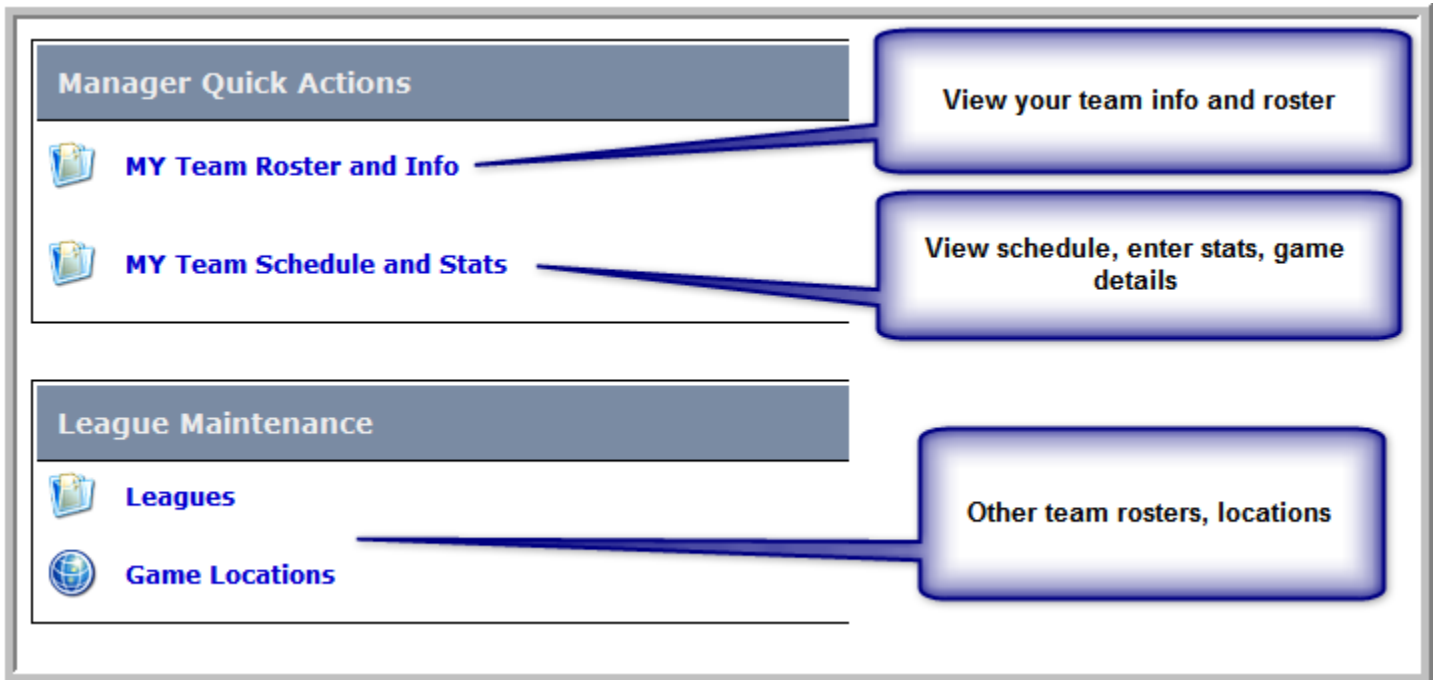

- Enter your userid and password (provided to you in a separate email) at the login screen, and then click on the submit button.
- PLEASE DO NOT BOOKMARK THE LOGIN PAGE. ACCESS DIRECTLY TO THE LOGIN PAGE WILL NOT WORK SUCCESSFULLY.

A screenshot of a login interface. At the top, the word "LOGIN" is displayed in a blue header. Below this, there are two input fields: "User ID" with the text "testuser" and "Password" with seven dots. To the right of these fields is a logo for "Chicago Central MSBL" featuring two crossed baseball bats. Below the input fields is a "submit" button flanked by two padlock icons. At the bottom of the page, there is a logo for "Small Systems SOLUTIONS" with a blue abstract graphic.

If you login successfully, you will be welcomed back. Click on the Main Menu link to go to the manager screen.

## Modifying your Team Information

Select:

**MY Team Roster and Info**

You are given two links for your team.

\*\*\* Edit Info - Changes the information about your team

\*\*\* Players - View roster, add/edit players, view ineligible player report

You are now at the Team Information page. Edit / add the information for your team. **The more information you can enter about your team, the better!**

**NOTE:** Managers CANNOT modify the team name! **If your team name is incorrect, please send an email to [info@chicagocentralsbbl.com](mailto:info@chicagocentralsbbl.com)**

**Team Editor - null**

## Adding and Modifying Players to your Roster

NOTE: If you add a player to your roster by mistake or need to drop a player, please request for the player to be removed by sending an email to [info@chicagocentralsbl.com](mailto:info@chicagocentralsbl.com)

NOTE: Players who have played in your age bracket in the past should NOT be added by you to your roster. Contact your league administrator to have the player moved from the "free agent" list to your team. His lifetime stats, drivers license, etc. are retained for league record keeping.

Let's add a player for our test team, the Mariners.

First, go back to your main menu and then select

**MY Team Roster and Info**

Then, click on Players. A list will be given of any players currently on your roster.

***(Initially, your listing will be empty until you've added a player.)***

## Viewing your Team Schedule and Entering Player Game Stats

At or past the date of a game on your schedule, you may enter player game stats and box scores for each game.

**THE WINNING TEAM MANAGER IS RESPONSIBLE FOR ENTERING THE BOX SCORES!**

At the main menu, click [MY Team Schedule and Stats](#)

At this page, you will see your team game schedule (the example here is for the Mariners).

HOME	VISITOR	LOCATION	DATE / TIME	STATUS	
<u>Mariners</u> U	Diamond Dogs	Benedictin	02/05- 9:30 AM	Scheduled	<a href="#">Details</a>

Games where **your team is underlined** mean that you may enter/edit player stats for that game. If you see a checkmark next to your team, then at least one player stat has been entered for the game.

Click on any game where your team is underlined to view / enter stats for that game.

Select each player who played in this game from the pulldown, and enter the hitting stats for that player.

### Hitting

# Game Details (The WINNING team's responsibility!)

The WINNING team manager is responsible for entering the game details (box scores, game summaries) for the game. Although not required, it will allow the website to show much more detail about each game.

The system will automatically determine if the game went extra innings (more than the standard 7-inning game).

**The information on this page IS NOT linked to the player game stats entered elsewhere. It's up to the winning team manager to enter the information as correctly as possible. The runs, hits, errors, - everything is for informational purposes only and is not used to calculate stats, standings, team runs allowed/scored.**

When the box score is entered, hit the submit button to return to the schedule menu.

### Game Details

Your Comments

**Phil was not on his game today.**  
**Joe made some very good calls on the field - a very good umpire!**

Various reports are available for usage with managing your team

## Ineligible Roster Players

This report is available on your team "Players" list.

Players who do not have the required documentation on file with the league (Driver's License, Code of Conduct (per season), and Waiver(per season)) will show up on this list. Prior to games in which this player is to play, please ensure this documentation is on record with the league, or refer back to the field rules for the exact requirements.

***Is the team roster important?***

Yes, if a player is not on the roster, you cannot enter game stats for that player.

***If all the “additional” information about a team / player is optional, why have it?***

It makes the website much more informative about each team and player. If you click on an individual player on the league website, all the information you entered about that player will display (aside from his phone number – that’s for you to have on record).

***Can I Enter Player Lifetime Stats? What is it For?***

Yes! The league will probably enter the lifetime stats for each player we have a record of. However, you can key in the information if you wish.

Lifetime stats will show up for each player on their respective player info page on the league website.

***Why does the website not reflect the changes I’ve made in the manager area immediately?***

Because updates of this nature would cause issues with the amount of time it takes to recalculate everything. The system is setup to ensure “must have” information is updated in a quicker manner.
